

Hi.

**My name is David A. Gwilt,
and I am the ‘talent’ on this
site, as they say.**

I’m certainly not the tech expert, or the editor, so that leaves ‘talent’ I guess. My purpose in life at this point is to encourage you to enjoy life as a journey, not a destination. Since none of us come to this place with an expiration date stamped on the bottom of a foot, or a ‘best by’ date, I’m here to do a few things. They include my passion to: entertain, motivate, and inspire you to maximize your abilities, take chances, write your own story, get out of your comfort zone, cross the double yellow lines, laugh a lot, cry if need be, exercise, accept the world as it is, improve your attitude, enjoy the aging process, and oh yeah, be of SERVICE TO OTHERS.

Small task, I know. However, I’ve been living with those concepts for a while now and believe that I’m on to something here. It’s not anything that I’ve learned in a book, or from a seminar, or saw on TV. It’s from a life of living, loving, and making decisions that did and sometimes didn’t turn out the way I would have preferred. But they were not bad decisions! They were decisions based on the best information that I had at the time. And my preferences.

I have a strong, active, and real relationship with a God of my understanding. My God inspired me back in 2011 to carry a message of laughter, love, and inspiration to audiences of all ages.

I’ve managed to put this all into one hour which includes humor, some of it corny, and my thoughts on a variety of topics. The basis for all of this is an acronym that I created years back; P.L.E.A.S.E..

PLEASE stands for Prayer, Laughter, Exercise, Attitude, Service, and of course, Every day.

I’m a Syracuse, New York native, and a 1972 graduate of Syracuse University. I also studied Gerontology at the University of North Carolina at Charlotte. I act in community theater, have a lifelong curiosity in almost everything, and was blessed with a strong verbal ability.

**Please let me know how I may be of service
to you and your organization.**

David
